

Routine Vision Exam Reminders

Dear Premier Wellcare Provider,

Diabetic Wellcare Medicare Advantage Members are eligible for a Free Annual Routine Eye Exam every calendar year which includes screening for retinopathy. Members are encouraged and reminded every year of the importance of scheduling their Free Routine Vision Exam to screen for and monitor the progression of retinopathy and other ocular diseases.

As partners in the care of our members, we also invite you to follow up and send reminders encouraging them to schedule their Free Annual Routine Eye Exam. A call, letter, postcard, email, or text are simple yet effective ways of prompting members to schedule an appointment.

Working together, we can ensure our members are proactively seeking the very important vision care they need!
